

# AQUA-CEL water energizing devices

# STOP!

- SPENDING ON EXPENSIVE WATER IN BOTTLES
- THE FREQUENT DRAGGING OF BOTTLES
- THE ENORMOUS WASTE OF PLASTIC BOTTLES

DRINK FROM NOW ON HEALTHY AND CHEAP TAP WATER THANKS TO **AQUA-CEL !**

## THE CONCEPT

The AQUA-CEL devices transform your dead tap water into healthy, living water, free of toxic substances and as pure as spring water.

Furthermore, the AQUA-CEL devices energize and vitalize the water, reduce the amount of chlorine and supply the water extra oxygen.

The AQUA-CEL devices may not be compared to water filters or chemical treatment systems.

The activity of AQUA-CEL is based on 2 principles:

1. a precisely calculated whirling of the water due to the gold-plated “**whirling disc**”, to the principles of Victor Schauberger, that has following effects on the water flowing through:
  - a) dissolves and erases all the information and frequencies saved in memory of the water by breaking the water clusters. Due to contact with all sorts of substances, even toxic substances, parts of these substances and their information can still be traced in the tap water, even after multiple filtering and purification of the water.
  - b) separates the chlorine and harmful gasses
  - c) supplies extra oxygen; oxygen enriched water has a highly purifying effect
  - d) changes the aggressive lime into harmless lime dust that no longer massively deposit on surfaces
2. as the water is flowing over the **programmed crystals** (with the information of 69 trace elements and minerals), the water clusters absorb this new, positive information and transfer this to our body. This positive information can be compared to the information that natural spring water absorbs when flowing over many turbulent little waterfalls, rocks and minerals, which is deciding for its quality. This “new formatting” of the water can be clearly seen under an electron microscope: the crystalline structures are orientated again in a neutral form.

**The AQUA-CEL devices distinguish themselves from other devices as they “format” the water again and supply extra oxygen to the water.**

The devices energize the tap water in such a way that the medical world is stunned. Even a single consumption of 1 L **AQUA-CEL** water has a measurable positive effect on the blood image of the person (measured with a Dunkelfeld microscope – see tests).

The **AQUA-CEL** devices also have a **descaling action**. They do not filter the lime, but transform the lime in the water in such a way that it no longer causes massive scale. The lime is largely kept floating in the water so that only a small part is fine-grained deposited (can be easily removed by a cloth).

The **AQUA-CEL** technology is not only applicable on tap water, but can also be used **to energize and vitalize different drinks (non-carbonated drinks)** as a lot of drinks contain mainly water.

#### Note

All metal parts of the **AQUA-CEL** devices are one by one handmade in the food industry approved stainless steel of type V2A.

### **AQUA-CEL ENERGIZING DEVICES**

	<p><b><u>AQUA-CEL type Ø 30 mm (article A.A. 014)</u></b> To use on standard Tap</p> <p>To use on standard water taps in bathroom, kitchen, garden, ... Elegant design in stainless steel. With (A.A. 014) or without (A.A. 030) ball- and socket joint. Easy installation without equipment.</p>
	<p><b><u>AQUA-CEL type Ø 30 mm (article A.A. 030)</u></b> To use on standard Tap</p> <p>To use on standard water taps in bathroom, kitchen, garden, ... Elegant design in stainless steel. With (A.A. 014) or without (A.A. 030) ball- and socket joint. Easy installation without equipment.</p>
	<p><b><u>AQUA-CEL type Ø 30 mm (article A.B. 012)</u></b></p> <p>To use on standard shower heads till 22 L / minute with minimum 2 Bar and maximum 5 Bar. Elegant design in stainless steel. Less scale in the shower and softer water for hair and skin. Easy installation, between hose and thermostat.</p>
	<p><b><u>AQUA-CEL filter (article A.D. 036)</u></b></p> <p>For standard water taps, to use with device A.A. 014 or A.A. 030 If the quality of the tap water is not good, you can use this filter. Easy to install on the water tap and fix the Aqua-cel device on the filter (see picture).</p>

device

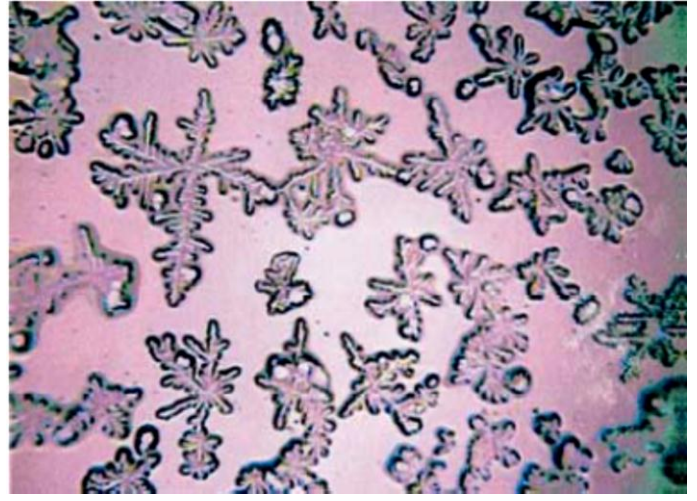

## TESTS

### 1. Test on tap water and water energized with the AQUA-CEL device type A.A

Test done in the HAGALIS Institute, Überlingen. The water has been deflocked by -3°C confer the principles of Dr. Masaru Emoto (see also the book “Messages from water”).

Tap water  
400 times enlarged

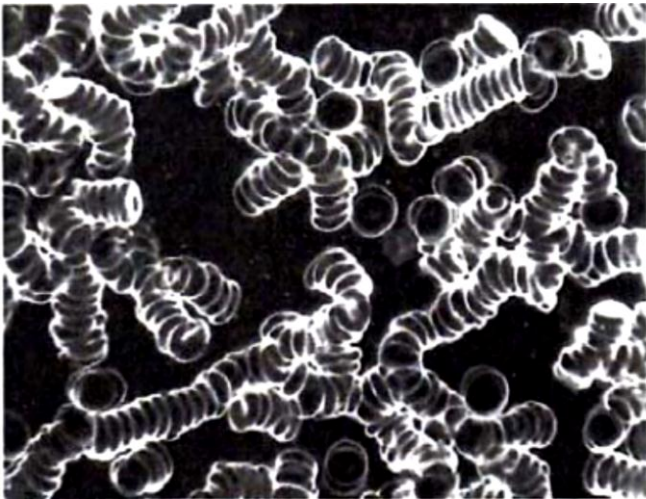

the same tap water energized with AQUA-CEL  
400 times enlarged – has a nicer crystalline structure

#### Conclusion:

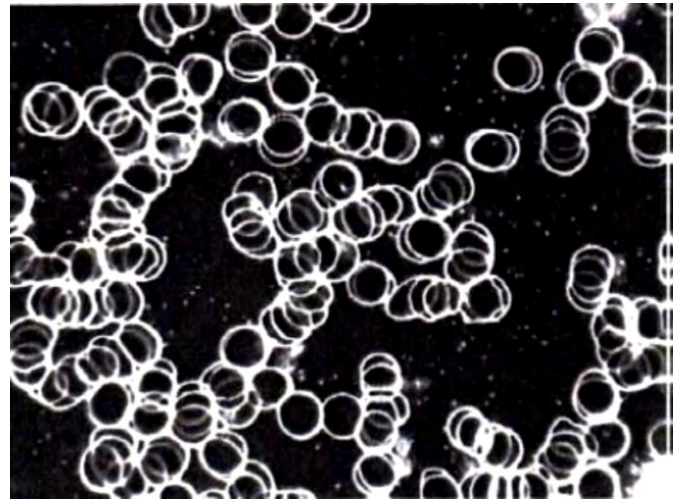

with the **AQUA-CEL** energizing device the quality of the tap water becomes that of spring water.

### 2. Test done with a Dunkelfeld-microscope on human blood after drinking energized water from the AQUA-CEL device type A.A

Test done in the institute of Dr. Höfer, Bamberg.

Before drinking water  
1000 times enlarged

half an hour later, after drinking ½ L water  
energized by AQUA-CEL - 1000 times enlarged

**Conclusion:** the blood clots less which increases the quality of the blood and the red blood cells and improves the blood circulation.

### 3. Test done for 2 months with 2 identical plants at a Westside window with direct sunlight

**Conclusion:** with the **AQUA-CEL** energizing device the quality of the tap water becomes that of spring water.

The picture clearly shows that water energized with an **AQUA-CEL** device, also influences the growth of plants.

**The best test:** The best test is always the one that you do yourself.

People can be influenced, but animals and plants can't be. The test on the plants is significantly. But, you can also do a test with your dog, cat or another pet. Place 2 bowls with water, one with normal tap water, one with tap water that has been energized by an **AQUA-CEL** device. No matter how many times you repeat the test, your pet will always choose, prefer the **AQUA-CEL** water.

#### USE AND BENEFITS

##### 1. HEALTH

- your tap water gets the quality of healthy spring water
- deslacking and detoxicating effect
- less microbes
- less susceptibility to allergies
- stimulates the metabolism and has a vitalising effect

##### 2. NUTRITION

- recommended water for baby food because of the low nitrate content
- food and drinks preserve better their aroma
- vegetables and fruit are longer fresh, preserve better
- the vitamins in vegetables and fruit are better and longer preserved
- tea, coffee and soup taste better and are healthier

##### 3. BEAUTY

- the skin becomes softer and more supple
- stimulating, vitalising shower effect
- hair becomes more vital

##### 4. HOUSEHOLD, PLANTS AND ANIMALS

- no more heavy carrying of bottles and crates
- less expensive and healthier water
- no more aggressive scale in bathroom and pipes
- lush growth for plants and flowers
- animals prefer **AQUA-CEL** energized water

##### 5. ENVIRONMENT

With **AQUA-CEL** no more waste of plastic bottles. Plastic bottles often also contain too much anti-monium (a heavy metal), which can be harmful for our health.

##### 6. FINANCIALLY

With an average of 1 bottle of mineral water a day per person, the cost for an **AQUA-CEL** device type A.A can be recovered in 6 months in a household of 2 adults.

From then on it is pure profitable and you don't have to carry any longer heavy crates.

## Good4UGoods

**So, remember this: AQUA-CEL is THE solution for your daily table water**

- **nothing is cheaper**
- **nothing is easier**
- **nothing is healthier**
- **nothing is better for the environment**
- **nothing is more simple**

**ONLY: AQUA – CEL !**
