

Scorpio

The Scorpion

October 24 to November 22

YOU are determined, intuitive, and passionate.

OTHER Scorpios are secretive, resentful, and stubborn. And believe me, they were not happy to hear that you were described so nicely. I'm sure that they're scheming against you. Peek out the window. They're hiding out there somewhere, right now.

LIKES Challenges, meaningful work, and being allowed to exercise their skills. And let's be honest, look at those claws. Scorpios really *like* pinching people.

DISLIKES Being taken advantage of, insincerity, and getting slapped right after the pinching. C'mon, nobody gets mad when a Libra weighs something. If you don't want to get pinched, don't come around acting all pinchable and everything.
